

# Working-group proposal #1

## Establishing a community-wide communication platform

Submitted on 04.05.23

### 1. Summary

I want to establish a working group to build an open natESM communication platform to enable everybody who is interested to transparent and easy share information on all natESM processes and topics and beyond (components, modules, workflow, release-planning, sprints, community).

### 2. General information

**Estimated duration:** 3 months  
**Responsible contact:** Iris Ehlert (DKRZ)  
**WG-members:** Bockelmann, Hendryk (DKRZ)  
Budich, Reinhard (MPI-M)  
Jöckel, Patrick (DLR)  
Klocke, Daniel (MPI-M)  
Müller, Ralf (DKRZ)  
Potthast, Roland (DWD)  
Schättler, Ulrich (DWD)

**KickOff:** 05.05.23

**Expected WG-dissolution:** 28.07.23

### 3. Working-group objective

Establish a platform that offers the following.

1. Possibility for personal exchange on any (e.g., ESM, events) topics (social branch → chat, possibility for spontaneous video conference for small groups?, more?)
2. Information about the status of natESM components and modules (incl. future release planning, workflow overview, repository, more...)
3. The possibility to exchange and edit code.
